

NFP Supportive Health Professionals

For a search more broad than the Charlotte diocese, the following directories may be helpful: [FACTS](#); [Priests for Life](#); [One More Soul](#)

The following medical doctors have indicated that they practice without prescribing, performing, or referring for contraception, sterilization, abortion, or in vitro fertilization. They promote Natural Family Planning for achieving or avoiding conception. However, a provider may work among colleagues in a practice that does provide contraception.

In addition, the list references those doctors who practice [NaProTechnology](#) (Natural Procreative Technology) and/or [FEMM Medical Management](#). These are medical programs that focus on restoring normal function and cooperate completely with the reproductive system to restore menstrual health and fertility.

Please Note: This list is provided for informational purposes only and does not entail endorsement of any healthcare provider by the Office of Family Life. As with any healthcare decision, care should be taken to select a provider that you have thoroughly researched and who meets your particular needs.

CONNECT WITH A [CATHOLIC DOULA](#) IN THE GREATER CHARLOTTE AREA!

TELEMEDICINE OPPORTUNITIES: See Providers listed at My Catholic Doctor [here](#), including the following specialists in women's health and fertility issues, [Faith Daggs, MD](#), [Greg Lang, MD](#), [Megan Blum, PA-C](#), [Megan Kreft, PA-C](#), [Bernadette Powell, PA-C](#), and [Craig Turczynski, Ph.D.](#) (reach out for expert advice on assisted reproductive technologies and male fertility problems).
